New double-handed Globe 40 Race underway

Brisk westerlies for *Gryphon Solo II* at the start of the *Globe40* race in Tangier

The **inaugural Globe40 Race** got underway on Sunday, June 26, with seven Class 40 teams starting from the Moroccan city of Tangier on a **30,000-mile circumnavigation**.

Collision just out of the gate

The French entry *The Globe en Solidaire*, skippered by Eric Grosclaude, tacked into the Canadian *Whiskey Jack*, skippered by Melodie Schaffer, and struck her amidships. Fortunately the Canadians seemed to escape without too much damage and continued on, but the French team had to return to port with a broken bowsprit.

Nova Scotia

HISTORY. GRIT. TENACITY.

If you think Nova Scotia, Canada is just a pretty corner of Canada, think again. With 13,300km of coastline and desirable ports like Lunenburg, it's a boating and sailing destination.

ON THIS DAY *in history*

John Lennon (16) and **Paul McCartney** (15) met for the first time on July 6, 1957. They were introduced by a mutual friend, Ivan Vaughan, during a church fete at St. Peter's Church in Liverpool. Lennon's skiffle band the Quarrymen were performing and McCartney would later join the band.

It was a humble little meeting that turned out to be one of the most historic in rock history.

Many beginners make the mistake of picking the wrong boat to begin with, which can lead to frustration and turn them off of sailing forever. Check out this article:

BEST SAILBOATS FOR BEGINNERS.

The Mariner is for you!

Write to me, share your ideas and ask your questions. Take a listen and give me your feedback; ask for clarity on anything we're covering, suggest new subjects to cover; this is your chance to contribute.

~ CHRIS STANMORE-MAJOR

G is for Gybing (& Tacking!)

This episode we investigate 'G is for Gybing' (Jibing for those in North America!) as part of our on-going 'ABC of Sailing'. I discuss what it's like to gybe an Open 60 in the Southern Ocean, mistakes to avoid and potential injuries/damage. We'll also discuss how to deal with crash gybes that lead to broaches and why it's healthy to be nervous of this most dynamic sailing evolution.
